MEXICAN AFFAIRS GIVEN ATTENTION AT THE CAPITAL

Efforts Of The Huerta Government To Compose The Country Believed Sincere

MANY DIFFICULTIES ARE TO BE SURMOUNTED FIRST

Graft and Neglect Still Exist In Many Official Circles Of The Southern Republic

By The Associated Press

Washington, July 7.—The Mexican situation is receiving more careful study by the American government than has any subject since the Paris peace conference, it was stated today at the state department. This is with a view to according recognition to De La Huerta's provisional government, provided satisfactory assurances are given that it can and will maintain order and will live up to its obligations respecting the protection of the lives and property of foreigners.

Iglesias Calderon, the special envoy sent by De La Huerta to ask recognition, will ask for another conference with Acting Secretary Davis when he had discussed the situation with the members of his staff who have just arrived here from Mexico City.

American officials, it is stated authoritatively, are impressed with the evident sincerity of the expressions of provisional president De La Huerta, and of the efforts to bring about order in Mexico, but they have taken note that the active workers in the various departments of the Mexican goternment have not been changed and that the newly appointed cabinet officers leave the work of their officers chiefly to the same man who conducted the affairs under Carranza.

Deal With Same Men.

Reports from Mexico City state that foreigners who went to the Mexican capital to compose the differences between their companies—agricultural, mining and manufacturing—are forced to deal with the same men they formerly dealt with, and in some cases the men who con[illegible]ification of their prop[illegible] Carranza, and that they are meeting with the same difficulties as before.

General Obregon's desire to reduce the size of the army, as reported in official and unofficial advices, are believed by officials to be sincere, but it is noted the army has been increased by 30,000 men as a result of the revolution. Official reports received here have told of efforts that are being made to "moralize" the army by stopping the abuse to life and property.

General Calles has issued a strong "order of the plaza" on that subject.

The treasury department has estimated that the cost of the army is one million pesos a day, and Salvadore Alvarado, acting secretary of the treasury, officially announced there were "8,000 or 10,000" people living on the nation by the padding of payrolls.

Can't Get Railway Cars.

One serious military abuse the government has not been able to correct is the withholding of railway cars and locomotives in spite of specific orders for their return to owners. More than 3,000 cars are still in possession of the military and the railway operators say it is impossible to maintain freight or passenger schedules unless the cars are restored. General Luis M. Hernandez has been sent on a tour of inspection with orders to compel the military chiefs to return the cars.

The school teachers in Mexico City have not been paid since June 10 and recently a petition was sent to the senate asking restoration of the department of public instruction which was destroyed by Carranza.

Difficulties of reorganization and administration apparently are not the least serious of those facing the new government. Reports to the state department today told of several new revolutionary disturbances in various sections. These seem to be distinct from the movement led by Francisco Villa, and while not considered serious in themselves, the department officials in their efforts to analyze the whole Mexican situation are giving them careful study.

Reports from the border today that Villa had signed an armistice had not been confirmed in advices received by the department.

Officials frankly state that the new regime in Mexico has a great task to perform before the country is restored to anything like normal conditions. They fully appreciate the difficulties that confront the new administration and say they are anxious to give what aid they can consistent with the protection of the rights of Americans in Mexico.

Shooting On Plaza.

The only excitement incident last night was the firing of a gun on the plaza. One of the special officers sworn in by the mayor was examining his weapon and it was accidentally discharged. No one was hurt and the other boys had a good laugh afterwards.

Messers Lemuel Prock and wife and Claud Ball and wife left Tuesday morning for a brief fishing trip at Roebuck. They stopped over and took dinner at Arthur City with Mr. and Mrs. Ed Record.

LOUISIANA MEMBER CALLS 'EM LUNATICS

Resents Request Of Gov. Cox For The Adoption Of Suffrage Amendment

By The Associated Press.

Baton Rouge, La., July 7.—The general assembly adjourned tonight without taking action on the federal suffrage amendment, although Governor Cox, the democratic presidential nominee, today in a telegram to Frank J. Looney, chairman of the democratic state central committee of Louisiana, urged ratification of the measure. It is expected to come up tomorrow.

In order to do this a two-thirds majority is necessary to suspend the rules and the supporters of the ratification amendment doubt their ability to obtain such a vote.

The bill proposing to extend the suffrage to women by state amendment was killed in the senate late today by a vote of 27 to 14, just one short of the required two-thirds majority.

Tomorrow is the last day of the session of the general assembly and suspension of the rules in both houses of the legislature would be necessary to pass the measure.

"I will not allow Frank J. Looney, or any other lunatic to dictate to me" declared Judge Gilbert E. Dupre, representative from St. Landry Parish, when the telegram from the democratic state central committee, stating Governor Cox desired the Louisiana legislature to ratify the suffrage amendment, was read.

"I say this telegram is an insult to the intelligence of every member of this congress," declared Mr. Dupre speaking on a point of personal privilege. He spoke for several minutes amid the cheers of several opponents of female suffrage.

GOVERNOR SAYS NOTHING TILL LEGISLATURE MEETS

Raleigh, N. C., July 7.—"No conference is going to develop anything with me until the legislature meets in special session", declared Governor Bickett today after an interview with Miss Mary H. Hinton, president of the North Carolina suffrage rejection league, who called the governor's attention to the relation of the federal amendment to the North Carolina constitution's suffrage provisions.

GRATITUDE OF TURK TO RED CROSS NURSE SHOWN

By The Associated Press:

Constantinople, July 2.—The gratitude of Enver Bey, a nationalist machine gun commander, who had been nursed back to health by Miss Mary Super of Narberth, Pa., a Red Cross nurse detailed with the American commission for relief in the Near East, made possible the escape of the relief workers from the American board mission buildings in Hadjin, 30 minutes before the nationalists turned their artillery on the structures and destroyed them, June 13.

This fact became known today wth the arrival here of Miss Super, Miss Katherine Bredemus of South Bend, Indiana, and Mr. and Mrs. D. C. Eby of Disbury, Alberta, from the Hadjin district.

VOLTAGE WINS SWEEPSTAKES IN RACE AT CLEVELAND

By The Associated Press:

Cleveland, Ohio, July 7.—Voltage, owned by J. D. Welsh, Kansas City, Mo., and driven by Fred Egan, of Memphis won the Fasig sweepstakes purse of $2,000, the feature event of today's grand circuit racing. The Prince Volo colt took the event from five great juvenile trotters in straight heats. Great Britton almost overtook Day Star for second place in the second heat. The time, 2:11¾ for this mile, was remarkable, considering the heavy track.

Continued rains this morning put the track in such condition that it was impossible to finish today's program of six races.

COTTON PROGRESS GOOD DURING THE PAST WEEK

By The Associated Press

Washington, July 7.—With weather conditions favorable the cotton crop made good to excellent progress throughout the belt during the last week, according to the Weekly Bulletin of the department of agriculture issued tonight.

"Cotton is still somewhat backward in most sections of the belt," the report stated, "but it is well cultivated and the plants are fruiting satisfactorily except in places where weevil are numerous, but weevil damage so far has been generally light in most sections where they have appeared."

JOHNSON PROMISES HARDING SUPPORT

California Senator Not To Sulk In His Tent, According To An Announcement

By The Associated Press:

Marion, Ohio, July 7.—After several weeks spent in preliminary preparation Senator Harding today began the actual writing of his speech to be delivered July 22, accepting the republican presidential nomination. He expects to complete it in about ten days and meanwhile plans to see few visitors.

In order to get an early start, the senator arrived at his office in the administration building adjoining his home several hours earlier than usual today, but found it locked. Seating himself on the front porch, he waited until George Christian, his secretary, arrived and unlocked the door.

Following a custom acquired in active newspaper work, Senator Harding is writing his speech with a pencil on a scratch pad from which it willl be later copied on a typewriter.

"I am writing it as I used to write for the newspaper," said Senator Harding. "It's ah bit of 30 years standing. I write as I think."

According to his office, the senator never dictates a speech and after it has been written in ling hand, seldom makes changes in his "copy."

The announcement by Senator Johnson of California today that he would support the republican ticket greatly pleased Senator Harding. The statement did not come as a surprise, however, as it had been understood around the Harding headquarters that that would be the California senator's attitude.

"I am glad Senator Johnson is going to give the ticket his support," the republican nominee said. "I am glad to know of everybody's support," he added, "and I would much rather have support on the grounds that our platform is appealing than on the grounds of interest in the nominees."

The Ohio senator added that throughout the campaign he intends to emphasize "interest in the party."

"It's going to be a fad in the campaign," said Senator Harding.

Attention was called to statements credited to Governor Cox, the democratic presidential nominee, that he planned an intensive campaign with an extended speaking tour through the country.

"I should imagine he would, but that does not change my plans any," Senator Harding said.

The senator today received a letter from Hurlburt Taft, editor of the Cincinnati Times-Star, pledging to him the support of that publication, as well as the "Taft family."

"It gratified me very greatly to know that I have the best wishes of all the Taft family and the Times-Star," replied the senator.

Another quiet day is planned for tomorrow, the senator having no engagement scheduled and he intends to devote his entire time to his speech.

TWO BIG PACKERS CHARGED WITH GROSS PROFITEERING

By The Associated Press

Boston, July 7.—Indictments charging profiteering in food were reported here late today by a federal grand jury against E. C. Swift and Company, Armour and Company, N. E. Hollis and Company and the Independent Sugar company of this city. The indictments are the first to be returned in New England by a federal grand jury for alleged food profiteering.

The Swift indictment charges that 17 cents was received for beef which cost the corporation only 10½ cents a pound. The Armour company, it is charged, sold New Zealand lambs, which cost nine and a fraction cents for 25½ cents a pound. The Hollis company, according to the indictment, charged 18 cents for beef which cost only 10½ cents a pound.

The indictment against the Independent Sugar company charged that the corporation sold for 24.4 cents sugar which cost it 16 cents a pound.

FRENCH OPINION OF DEMOCRATIC NOMINEE

By The Associated Press:

Paris, July 7.—Commenting on the nomination of James M Cox of Ohio for the presidency of the United States by the democratic convention at San Francisco, Figaro says: "It is difficult to predict Mr. Cox's foreign policy if elected. We understood that foreign affairs interest him but little and that he has mediocre confidence in the league of nations. There are many Americans with him."

The Petit Parisien says: "Mr. Cox has proved to be a good politician on a small scale in his local state. It remains to be seen whether he is a statesman of the calibre to look after the affairs of America."

Tells Louisiana Legislature Duty Is To Ratify Amendment For Woman Suffrage

By The Associated Press

Dayton, Ohio, July 7.—If the legislature of Louisiana acts in accord with the opinion of Governor James M. Cox, the democratic nominee for president, women will be enfranchised to vote at the November election and the democratic party may get the credit for making universal suffrage a fact.

In a telegram to Frank J. Looney, chairman of the Louisiana state central committee, Governor Cox expressed it as his opinion that "the Louisiana legislature owes it as a duty to the democratic party to ratify at once." Mr. Looney had wired the governor asking him to express his views to the legislature on raitfication of the amendment.

In his official capacity as governor of Ohio, the democratic candidate has repeatedly placed himself on record in favor of woman suffrage. He has signed bills intended to enfranchise this state and in a special message to the legislature transmitting the federal amendment for ratification, he urged favorable action.

Campaign From Columbus.

It was stated today by those in close touch with the democratic presidential nominee that he contemplated conducting his campaign chiefly from Columbus, where he will necessarily have to be much of the time in connection with his duties as governor. His Dayton friends, however, anticipate that his home city will be one of the principal nerve centers in the campaign and that no small part of his campaign work will be conducted from his newspaper office. It has been the practice of the governor to come home each Friday from Columbus and spend the week-end with his family at Trail's End and at his newspaper office.

No political conferences of importance are expected until party leaders return from San Francisco. The visit of Franklin D. Roosevelt, the vice presidential nominee, which is expected Saturday is not anticipated to develop into anything more than an exchange of felicitations.

Mr. Roosevelt will stop here on his way home from the convention. The governor spent most of today at his newspaper office, receiving callers and reading messages of congratulation which have poured into his office in a constant stream. Among them were felicitations from all the contenders for the honor that came to the Ohio governor, from Vice President and Mrs. Marshall, cabinet members, governors, political leaders of both parties, representatives of labor, business men and personal friends.

Mr. Lane's Message.

One message from Franklin Lane, former secretary of the interior, said: "I sincerely congratulate you and the country. Do give us a campaign that is constructive ,that will challenge the interest and support of the new voters. The people want to hear a definite word as to home affairs as well as foreign."

Talked on Golf.

Tonight the governor talked golf with the contestants in the Ohio golf tournament at a dinner at the Dayton country club.

"There is an erroneous impression that golf is a rich man's game. It is not. A set of clubs don't cost much," he said. He declared it encouraged outdoor life and particularly country living.

"If I have one public hobby that is more outstanding than any other, it has been the preachment of 'More homes'. You can preach patriotism to a man and appeal to his sense of duty, but you can't make the sort of appeal to him that he gains from his own reflections after he owns a home.

"He buys a lot, and, quite often, borrows money to build a home; his hopes are centered in the enterprise, and he works for it, and it becomes his own particular interest in his general allotment on God's footstool.

"When he finally achieves his objective and owns his home, he realizes it is his, and that he is protected in his ownership by his government; that under the laws he is given the right to transfer what he has earned to the next generation, and realizes that this generation too, will be protected.

REPUBLICANS HAVE NO APPREHENSION FOR OHIO

By The Associated Press:

Chicago, July 7.—Ohio republican leaders who conferred today with Will H. Hays, chairman of the republican national committee, were reported disapproving the 'front porch" campaign plans for Senator Harding. They favored a "swing around the circle" instead of the passive campaign advocated in some quarters.

"We have not the slightest apprehension about Ohio," they declared.

Law Supplants Anarchy In Paris By Mayor's Action

There is no danger of a race conflict in Paris.

There has never been any danger of any such trouble in the opinion of Mayor J. M. Crook, who has full charge of the situation, and of other calm and right thinking men.

After the indiscriminate firing of arms on the streets in the negro section of the city by unknown persons about midnight Tuesday, Mayor Crook began organizing into squads the men who were armed and going about the business section, and sent them to Pine Bluff street, recognized as a dividing line between the two sections of the city as to color.

These men had instructions to stop any passing from one section into the other; by either whites or blacks.

This was done in order to prevent any accidental clash of individuals or groups that otherwise might have occurred.

Yesterday the mayor, in consultation with a group of prominent citizens, summoned 250 men who at 6 o'clock yesterday evening were sworn as special officers, and put on the streets under command of Col. C. M. Ragland and under such orders as the mayor might find necessary or advisable to make.

These men were instructed to prevent any assembling into groups of any persons, white or black, and to permit no armed persons, other than authorized peace officers, to be on the streets. They will be on duty so long as there appears to be need.

Both white and black may, and should go, about their business as usual—the mayor's action is for that purpose.

Mayor Crook's Measures.

The situation following the lynching of the two Arthur negroes Tuesday night, which caused a deal of excitement in Paris on account of unfounded rumors of an uprising and reprisals by negroes, has been handled by Mayor J. M. Crook in an admirable manner. Paris last night was quiet and will continue to be.

Soon after the lynching the rumor from an unknown source that the negroes were holding meetings with the purpose of attacking white people gained wide circulation and the consequence was that soon the streets were filled with armed men and youths, each under his own command some of them having obtained the weapons by breaking into hardware stores. Messages went to many homes for the able bodied men to come to the business section, armed, and to get the women and children to places of safety and this added to the excitement. Automobiles with armed men dashed through the streets and there was some desultory firing of guns in various places though whether they were fired at people or just let off in the air could not be told.

Mayor Crook went into the negro section in an auto with two other men to see what base there was for the rumors and to persuade the negroes, if they were gathered together, to go to their homes where no harm would come to them. He found no gatherings and was returning to the business section when shots were fired from an undiscovered source at the auto. He thereupon came to the Plaza and began organizing the volunteer guards into squads and sending them to Pine Bluff street with instructions to permit no one to go into or out of the negro quarter. This was in order to prevent any casual clashes that might otherwise have occurred and proved to be a wise move, as thereafter there was a gradual cessation of the excitement and no more shooting.

Talked to Negroes.

About daylight the mayor went back to the negro section and called on A. B. Burnett, a well known negro citizen, to accompany him as he wanted to talk to the frightened negroes and believed that they would more readily listen to him if he was with one of their race. Burnett went with the mayor and they saw a number of the more responsible members of the race, and were able to gather a small crowd of them at the intersection of Twenty-Fourth and Tudor streets where the mayor told them he would guarantee them full protection if they would go about their business and refrain from gathering and talking about the affair of the preceding night. This the negroes promised to do and they appeared to appreciate the mayor's action.

The mayor then went home to try and get a short rest, having been up all night, but about 10 o'clock he was called on by Dr. Kirkes and W. A. Collins and asked to come to town and hold a conference with some citizens as there was beginning to be talk that the night would see worse trouble than Tuesday night. A meeting with about fifteen people was held at City National bank and it was agreed that the mayor should call on a posse of 250 men and issue a proclamation to the public, which was done. The proclamation was prepared and published in the Dinner Horn yesterday afternoon and will be found in The News this morning.

Law Versus Anarchy.

Last night this posse was used to patrol the streets and the result was a quiet greater than on a Sunday evening. The people generally respected the mayor's request and there was practically no passing except by those engaged on business. People slept secure from alarm and it was a striking illustration of the difference between the reign of law and of anarchy.

Mayor Crook stated to The News yesterday, as he had said numerous times before during the day and Tuesday night, that he had no fear of a negro uprising nor of anything that could be called race trouble. He knew that accidental conflict by individuals might be precipitated under conditions that obtained Tuesday night but of organized trouble he had never a fear. He will continue his precautions until all danger of disturbance has passed.

Sheriff Clarkson Returns.

Sheriff Clarkson returned to the city about noon yesterday, having driven through from Horatio, Ark., where he was when he heard of the lynching. He was in Valliant when the negroes were arrested but one of them so little resembled the man wanted, according to the description that had been given, that the sheriff had left on a trail of two other stranger negroes who had gone east from Valliant, first giving instructions that someone from Paris should be sent for who could positively identify the two negroes. In case of identification he asked that they be put in an Oklahoma jail until they could be safely brought to Paris. The officer in charge of them said he would put them in the Idabel jail, as that was in his county, to which Sheriff Clarkson agreed. He was therefore astonished when he reached Horatio to learn that the men had been brought here and the telephone operator told him that they were being lynched. Mr. Clarkson thereupon turned back to come to Paris. He learned later that the two other negroes he was following were very probably two that were wanted in another place in Oklahoma on a charge of criminal assault.

County Attorney Eubank yesterday talked to Acting Governor Johnson with regard to having troops sent to Paris, not knowing what might eventuate, and the governor told him that he did not know where an available company was located and would have to consult the adjutant general. Later Messrs. Clarkson and Eubank, learning the steps that had been taken by the mayor and chamber of commerce wired the governor that troops would not be needed.

How They Were Caught.

The capture of the two men was due to the posse composed of John Brown, Wood Murrell, Grady Sturgeon and a negro, Pitt McGrew, the latter being taken along for his ability to get information from negroes that a white man could not get. They left here Sunday and crossed into Oklahoma at a ferry northeast of Paris where the negro ferryman told Mr. Sturgeon that he had put across three negroes, two of whom the posse believed fitted the descriptions of the men wanted. The party went on to Valliant and finding no more clues Messrs. Brown and Murrell left but Mr. Sturgeon and McGrew stayed and the former consulted with the local officers. Monday evening the Oklahoma officers arrested a negro who proved to be one of the brothers and later the other was picked up in a negro restaurant, having just come in from a cotton field where he had worked that day.

Exodus of Negroes

According to many reports, a considerable number of negroes left Paris Wednesday, including a number of families.

There was, it was stated, expression of intent upon the part of others to go as quickly as they could.

Many of the negroes stuck closely to their homes during the day; but most of them went to their places of employment and pursued their usual occupations without molestation or demonstration.

As a matter of fact, there was apparent no sort of feeling as against the negroes which came from any sort of responsible source. If there were any such, it was not known generally.

Burial of the Bodies

The bodies of the two Arthur brothers were recovered, one Tuesday night and the other early Wednesday morning. They were properly prepared for burial and were interred by an undertaking company without any publicity. The place of interment was not disclosed.

There was much discussion of the incidents of the night before; and generally the lynching was condemned by the people of Paris when they realized just what it meant to them. A few there were who indorsed it, of course; but as a rule there was condemnation and regret.

It was utterly unnecessary; and the negroes should never have been returned to Paris until it was assured they were to be protected and properly and legally tried.

Sturgeon Did What He Could

Grady Sturgeon related that he had made every effort to have the negroes retained in the jail at Hugo, where Sheriff Clarkson had asked that they be placed in event of capture. Mr. Sturgeon had informed the Oklahoma officers that it would never do to bring these men to Lamar county; that they were certain to be lynched and that they could be safely held in Oklahoma.

Chief Harrel also pleaded with them to the same end; but they were evidently anxious for "credit" for the capture and insisted upon bringing them in, despite the consequences.

Negroes Brought in Arms.

It will be noted in the mayor's proclamation that he states that the negroes voluntarily surrendered weapons to him. These were mostly pistols and shotguns and the action of the negroes was largely voluntary.

The negroes evinced no fear save from that element which contributed the rowdyism of the preceding night such as those who dragged the bodies of the dead negroes in an exhibition of ghoulishness.

The men who did the lynching nearly all came from outside the city; were joined by citizens of Paris more from curisity than bloodthirstiness; but those who perpetrated the dragging were boys who live in Paris and Blossom it is stated.

Clarkson Returned

Sheriff Clarkson on his return to the city found there was nothing he could do saye to help quiet the excitement. The sheriff denied having made any statement to the effect that the men lynched were the wrong negroes. They had been fully identified, according to the information given him; and this he believed to be correct, being further convinced by the confession made to the county attorney. The purported statement was sent out by the Associated Press from Idabel, Okla., giving an officer there as authority for quoting Sheriff Clarkson as saying that the negroes were not the ones wanted.

UPSHAW SAYS COX WILL STAND FOR ENFORCEMENT

By The Associated Press:

Atlanta, Ga., July 7.—Representative Upshaw of Georgia, a national lecturer and former vice-president of the Anti-Saloon League, today sent Governor Co of Ohio, a telegram of "hearty congratulations" on his nomination as the democratic candidate for president.

Mr. Upshaw predicted victory for the ticket.

"While Governor Cox has been an honest opponent of prohibition, he has come out squarely for the majesty of the law, declaring it would be a national crime not to enforce it," said Mr. Upshaw in a statement issued when he made public copies of his telegram.

GOVERNOR GETS PROTEST TOUCHING THE LYNCHING

Austin, Texas, July 7.—Protest against the lynching of two negroes Tuesday night at Paris, Texas, is included in a telegram received late today by Acting Governor Johnson from the National Association for the Advancement of Colored People. The telegram further urges the governor to take immediate steps to apprehend and punish members of the mob which lynched the negroes.

Two Texas national guard companies were ordered to Paris this afternoon from Bonham and Greenville, at the request of Lamar county officials, but this order was later cancelled when the governor was notified by these officials that they could control the situation without troops.

SHERMAN LIONS TO ROAR AT SNAPPERS NEXT SUNDAY

The Sherman Lions will be the next Snapper guests, coming over Sunday afternoon for a joust. Sherman has a fast nine this season and the club has been winning right along this year. Although the average Shermanite can't see any good in a man that lives in Denison, the latter town has a number of good ball players, and it is stated that the Lions intend borrowing a few of these Denison birds to bring with them. Campbell, Peebles, and Helman will most likely be found in the Lion line-up, and if they are included the Lions will have a corking good ball club. Lefty Clowers will most likely be the Lion hurler, and Lefty is a hard proposition for any club to face.

The Snappers will take the field with about the usual array of talent, an aggregation that has succeeded in turning back all the clubs they have faced this year with the exception of Denison and Sulphur Springs, and it is no disgrace or belittlement of their base ball ability that the locals lost to either of the teams mentioned.

The majority of the Snappers will be out of town the rest of the week playing with Wolfe City, where a big picnic starts today. Williams, Shaw, Jackson and Snapp will all probably be in the Wolfe City line-up, along with Lee Anderson, the kid second baser of the Snapper clan. This gang, with a little pitching, is a ball club in itself and the trip will also give Snapp's players the benefit of several days' practice.

Reports from Sherman are to the effect that they have organized a rooter club, and these aforesaid rooters will make their maiden appearance as a body in Paris next Sunday. The Snappers have been licking Sherman right along, the Lions playing several games here last year and meeting defeat each time they played on the local grounds. There is no reason why Snapp and his huskies should not go right along licking these Lions they have been easy to tame heretofore.

With the line-up they now have, and the Snappers on their toes, it promises to be a most interesting battle.

Cotton Seed Oil Again Broke Sharply For Want Of New Buying Orders

New York Cotton.

New York, July 7.—An early advance in the cotton market reflected a renewal on the covering market which had developed yesterday afternoon and which appeared to be stimulated by increasing complaints of boll weevil damages. After showing a recovery of 100 to 110 points from the low level of yesterday, however, the demand became less active and the market turned easier during the afternoon with October contracts selling off from 38.85 to 38.05, or 35 points net lower. That delivery closed at 38.27 with the general market closing setady at a net decline of 3 to 37 points on all months except August which showed a loss of 80 points.

The market opened steady at an advance of 12 to 25 points. There appeared to be enough July for sale as the price approached the forty cent mark and the general market turned easier. Later July sold off from 39.25 to 39.40, or 30 points but lower and new crop positions broke 35 to 48 points from last night's closing figures with December selling at 31.60. A few buying orders sent July back to 39.87 at the close and later months also showed rallies of several points.

Chicago Grain and Provisions.

Chicago, July 7.—Corn scored a material advance in price today owing chiefly to belief that a reaction was due after the recent big break. Gains, however, were not held. The close was unsettled, ¾ cents net lower to ¾c advance with September 1.60¾ to 1.60¾, and December 1.45⅝ to 1.45⅝. Oats finished 1¼c off to ¾c up, and provisions varied from 37c decline to a rise of 10c.

Near the end of the day the market had an overbought appearance. Efforts to realise profits on newly acquired holdings followed and December closed at one half to ⅝c net slos.

ARTHUR LeBEAU, of Winooski, Vermont, who declares he is now in the 'pink of condition' and enjoying life for the first time in many years as the result of taking Tanlac.

"Thanks to Tanlac I am now enjoying life for the first time in years," recently declared Arthur Lebeau, foreman of the Porter Screen Co., Winooski, Vermont. "For five years I was a sick man. My principal trouble was indigestion. I had no appetite and generally went off to work without any breakfast because I knew if I ate anything it would only upset me.

"My condition was so bad, in fact, I could neither sleep, eat nor work with any satisfaction and was so nervous that the least little thing would upset me. Nothing seemed to agree with me and I would have severe cramping pains in my stomach and at times my heart would palpitate badly. I also suffered from shortness of breath, and the least little exertion would make my heart thump like an engine.

"At last I almost decided I would give up my job as I got so weak and miserable I felt I could stand it no longer.

"One night as I sat reading a paper I saw a statement about Tanlac which convinced me it was just the medicine I needed. It helped me from the very first dose and at the time I had finished my third bottle, I hardly knew myself.

"I never have the slightest symptoms of indigestion now and I feel like a brand new man in every way. My appetite is splendid, my nerves are steadied and I sleep soundly at night. The work I used to dread now seems easy for me and I am now in the very 'pink of condition.' Of course, I am only too glad to recommend this medicine."

Tanlac is sold in Paris by Mayes Drug Store, in Blossom by J. D. Dickey and Son, in Roxton by City Drug Store, in Howland by K. B. Burgess.

PARIS MAN BUILDING BIG ELECTRIC POWER PLANT.

A dispatch in the Dallas News yesterday told of the building of an immense electric power plant just east of Eastland, Texas, to cost $5,000,000, the master plant for the Oil Cities Electric company, which is preparing to supply power for a large section of West Texas. Four hundred men are now employed on the job and have begun to set the two batteries of boilers that will supply 10,000 horsepower for the turbines. The chief engineer of the work in personal charge of construction, is Murry Gill, son of William F. Gill of Paris.

DR. STELL SUGGESTS A WELL SYSTEM FOR WATER

Paris Morning News:

It seems remarkably strange to one who has known Paris ever since it received its name, about seventy-nine years ago, I think, that the citizens of this town are bewailing their luck over having to put up with bad drinking water, when I can safely assert that at least 95 per cent of these citizens are living within 30 or 40 feet of real good drinking water. The only exceptions of which I know where good palatabe water could not be had are far out north at the John Blois place and northeast at the Isaac Bernstein place. At all other points in and around the city was real good drinking water. I know this to be true for I have had four different homes in Paris and have drunk water at almost all the old homes in Paris before the Civil war and on up to the time that the city went into the waterworks business.

We used to boast of the good drinking water of Paris, but of course there never was an adequate supply for fighting fire or for manufacturing purposes.

If I had lived within the city limits, I should not have abandoned my well and taken chances on water to drink; and it is a surprise to me that so many of the old citizens who had fine wells gave them up and depended on the city for drinking water. It surely would pay to open up old wells, clean out thoroughly and again have good water. Those who came later on can, if they will, have wells dug or bored with the absolute assurance of getting an ample supply of good water for drinking and other domestic purposes.

Some may say my plan is not possible or practicable. I claim that it is both. If a dug well 3½ feet in diameter cost a single family more than they feel able to pay, club together and make one well serve two or more families. Years ago we had a windlass and one bucket to draw water from our wells; now, with the pulley and two buckets to balance each other, it is easy to draw the water from a forty foot well.

How independent you will feel with your own water supply when others are having to hold their noses in order to drink city water. It is a sad fact that we are rapidly losing our individuality, by relying too much on city, State, and national governments. Better return to first principles than starve for good drinking water.

To illustrate my plan, we will take the first six homes east of High St., fronting three on Lamar Ave., and three on Clarksville St. At a centered point dig a well 6 feet in diameter and deep enough to get an ample supply of good water to serve all demands of these six homes; put up a reservoir high enough to run water into the highest roonis in these homes, and a pump and gasoline engine. This plan could be repeated in a large number of like situations all over town and there would not be such a shortage of supply from the city lake as sometimes has been.

Bad water will put out fire and can be made suitable for all manufacturing purposes. But you may bail, strain and filter water from mud holes or mud dams, lakes, etc., and you are not likely ever to have good palatable water from such sources.

I am very sure that the city authorities are doing and have been doing all they can to procure an ample supply of water for the city; and by a system of wells they may be able to find good drinking water and have two systems, one for drinking purposes and the other for all other purposes, if the tax payers will stand the cost of the two plants or systems.

While my home is outside the city limits, I have felt warranted in making the above suggestions from a long acquaintance and love for Paris and Paris people. I hope no one will take offense at what I have written.

W. W. STELL.

All political advertising of whatever character will be collected for at time presented for publication. No bills will be made. This rule being made applicable to all can give no offense to any.

The same rule will apply to State, district and county applicants for office.

COMMISSIONER OF AGRICULTURE.

For this most important place there are two candidates, Hon. Sam H. Dixon of Houston and Hon George B. Terrell of Alto.

Both declare themselves intent upon reform in the department and assert that they will make it what it was intended to be—a help to the farmers of Texas.

For many years there has been dissatisfaction with the department of agriculture, with its methods, with its antagonism to the A and M. College, with its duplication of work of other departments.

Mr. Dixon is a man of wide experience and so is Mr. Terrell, the one as a worker in the department under various chiefs and the other as a practical farmer and a member of the legislature.

Mr. Dixon would appear to be the choice inasmuch as Mr. Terrell has allied himself with the "land league" movement, which smacks of the non-partisan league and is closely identified with other things which may be scanned as being not altogether in line with democratic sentiment and usage.

Both gentlemen have devoted themselves to the study of matters which should be of interest to the farmers of the State and there is little to choose in that respect. But Mr. Dixon has had a wider experience in working with the agricultural interests and is closer to them in many respects than is Mr. Terrell.

THE LAW DISREGARDED

The law has been disregarded; and in consequence we are upset; uncertain and feel unsafe.

The law is the safeguard of civilized men; and when man relapses and throws aside that shield even for the moment there is instant loss of the feeling of security which prevails so long as the law is observed.

With confidence in the protection of the law, we lie down and sleep peacefully; with no confidence that the law is to be observed or enforced; we lie awake and peer into the dark with suspicious eye, fearful of danger, alarmed at every sound.

The law has been thrown aside without scruple and without the least excuse. The distinguished district judge, a man in whom the people should repose the greatest confidence because of his honorable record, had made specific promise that there should be a speedy trial for the accused negroes, and in pursuance of that promise he had at once proceeded to make the effort to carry out his intent, hopeful that the people would listen to him.

But with only a few men intent upon themselves bieng instruments of vengance, disregarding their duty as citizens, unmindful and contemptuous of the effect of their lawless acts upon the people of Paris, the county of Lamar and the State of Texas and to all society, outraged that law—and we are beset with fear and have no longer confidence that when we sleep we do so with the law as a protector; that when we leave our places of business that it will be safe and undisturbed while we are in our homes; and we cannot leave those homes and repair to our places of business with the same feeling that all is well and that there will be no disturbance of that safety.

The law has been disregarded and outraged and those who had no hand in it must suffer even more than those who trampled upon it.

CONSTITUTIONAL AMENDMENTS

The Morning News today presents the three proposed amendments to the constitution which are to be voted upon in November. It is the patriotic duty of every citzen to carefully study these proposed amendments, to ascertain their probable effect and to vote upon them with intelligence.

So far as The Morning News is concerned, it is of opinion that all three should be adopted. But there will be contrary opinion, naturally. But no one should vote without understanding just what the amendments are and deciding for himself whether they are proper and right.

It is regrettable that so little attention is given amendments to the constitution; but it is a fact that at least half the voters will not take the trouble even to read them or to vote for them; while others declare themselves "agin" all amendments without reference to what they may be. This last number, of course, include the least intelligent of the voters.

The three amendments submitted are brief and are easily to be understood so that every voter may comprehend them by one reading; but they will be published in The Morning News several times, first as advertising and thereafter for the benefit of those who would not read them the first several times presented.

THE PAVEMENT TO EVERGREEN

The ladies of the Civic League are now conducting their campaign for the pavement of the extension of Church street to Evergreen cemetery and they should be given encouragement and assistance by everyone whether specifically requested to do so or not.

It is a movement which has the approval of a great majority of the people of the city of Paris and of the property owners along the route, whose holdings will be benefited largely in certain instances and very little in others. The property which will not be greatly benefited as to value by the pavement are the first to be signed on; and the only reluctance appears to be among those who will receive a very direct benefit and that speedily.

Give your encouragement and aid to the Civic League in this most worthy enterprise.

AGGRESSIVE CAMPAIGN FOR SCOUT MASTERS

Sometime this month, an aggressive campaign will be begun for scoutmasters to handle the 1200 available boys in Paris of scout age.

The boys under 12 and above 8 must also be handled and it will take several men and possibly women to push through this bunch of novitiates of which there should be about 1000.

The Scout Council will meet about the middle of next week and will formulate a policy for the coming year.

Mr. Marple has been getting acquainted with Paris and will have something definite by that time to lay before the council.

The council charter has arrived and is being framed for display in the office of the Scout Executive.

PROSPECTS FOR THE LAMAR COUNTY FAIR

Work On Building, Premium List and Catalogue Being Pushed and Will Be Ready In Time

Work on the exposition building at the fair grounds proceeds rapidly and there is now no doubt that it will be completed in ample time for the annual fair. The concrete work has been practically completed, the brick work is being pushed, and the carpenters are now constructing the stage and getting ready for the booths.

The trusses which will support the roof are being made in Dallas and Architect Wees states that they will be on hand as quickly as needed and there will be no delay on that account.

The success of the fair will be dependent in large measure upon the exhibits which will be made and with a continuation of the present excellent growing weather there will be no lack of these for the agricultural products while the live stock, poultry and similar exhibits will be easy to secure from the several progressive farmers of Lamar county.

W. G. Slipp of the Chamber of Commerce is now engaged in preparing the list of premiums; and these will be ready for publication within a short time.

The catalogue will be an extra effort this year and will carry the full list of awards to be made and the things for which these awards are to be made. It is now in the hands of the printers.

Little Stories for Bedtime

Jerry Muskrat Is Laughed At.

By THORNTON W. BURGESS.

Jerry Muskrat sat on the Big Rock in the Smiling Pool. Jerry Muskrat was very thoughtful. He paid no attention to Little Joe Otter, who was having a beautiful time on his slippery slide. He paid no attention to Billy Mink, who was fishing in the Laughing Brook just where it joins the Smiling Pool. He paid no attention to the Grandfather Frog, who was sitting on his big green lilypad watching for foolish green flies. Jerry Muskrat paid no atention to any one; he just sat and thought and thought and thought.

Little Joe Otter swam over. "Wake up, Jerry Muskrat," shouted Little Joe Otter, splashing the water up in Jerry Muskrat's face.

Jerry shook the water off and made a face at Little Joe Otter. Then he climbed a little farther up on the Big Rock and once more began to think and think and think. By and by he hopped to his feet, smoothed out his brown coat and walked over to the edge of the Big Rock.

"I believe I'll begin right away," said Jerry Muskrat aloud, as he prepared to dive into the Smiling Pool.

"Begin what?" asked Billy Musk, who happened to be near enough to hear.

"My new house for the winter," replied Jerry Muskrat.

Billy Mink stared at him. "Winter is a long, long way off," said Billk Mink. "What do you want to begin your house now for? You're foolish, Jerry Muskrat; you're foolish. Come on and have some fun!"

Jerry Muskrat shook his head. "It's going to be a long, hard, cold, cold winter, and I want to be ready for it early. Then I'll come and play."

Billy Mink looked hard at Jerry Muskrat to see if he really meant what he said. Jerry looked so sober and earnest that Billy Mink just had to believe that Jerry meant every word. Then Billy began to laugh. He called Little Joe Otter over and told him what Jerry Muskrat had said. Then Little Joe Otter began to laugh, too. Here it was beautiful warm weather and winter a long, long way off, yet Jerry Muskrat pretended to know what kind of a winter it would be and to talk of getting ready for it now. It was absurd. It was foolish. What could Jerry know about it? Jerry must be crazy. So they laughed at him and made fun of him. They told the Merry Little Breezes, who told Spotty the Turtle and Mrs. Redwing and Sammy Jay and Blacky the Crow and Grandfather Frog.

Jerry Muskrat Was Very Thoughtful.

Jerry's crazy as a loon!
Pretty soon he'll want the moon.
When the sun is shining bright
Jerry thinks it's almost night.
See him shiver in the sun,
Thinks that winter has begun.
Jerry's crazy as a loon,
Pretty soon he'll want the moon.

So sang Billy Mink and then everybody laughed at Jerry Muskrat, everybody but Grandfather Frog.

"Chugarum!" exclaimed Grandfather Frog. "If Jerry Muskrat says we are to have a cold winter we surely will have a cold winter. Jerry Muskrat knows."

Jerry Muskrat looked over at Grandfather Frog and smiled.

DISASTER FACING COUNTRY BY FARMING CONDITIONS

By The Associated Press:

Austin, July 5.Unless agricultural production is encouraged and the consuming public abandons its indifference to the farmers' problems, "nothing will prevent national disaster," according to Fred W. Davis, state agriculture commissioner. In a statement the commissioner declared the farmers' financial return for the amount of labor he does is insufficient Unless this is remedied, he added, a continued decrease in production is inevitable.

"A farmers' strike is on," Commissioner Davis said, "and will continue until the inequality between the country and the city is removed. Of course the farmers have not called a strike as the industrial workers do. It is a strike by means of the abandonment of productive effort. The farmer has decided the odds are too much against him; and feeling that he can never get adequate remuneration for his labor, he quits."

Mr. Davis declared he was astonished at the indifference shown by the general public over the diminishing margin between production and consumption. This indifference, he said, "is still more astonishing among our so-called statesmen and leaders."

Unless this order is changed only one other course remains if famine is to be averted, the commissioner continued. "If producers are not assisted in securing remuneration for their toil," he said, "the only means for averting a famine is the importation of farmers from the Orient, who are willing to work under conditions which would pauperize and degrade the American farmer."

NEW CHEMICAL KILLS BED BUGS P. D. Q.

P. D. Q. (Pesky Devils Quietus) is the name of a new golden colored chemical discovery by Dr. Price that actually rids the worst infested house of bedbugs, roaches, fleas, ants and their eggs. They don't have no time to kick after you go after them with P. D. Q. A 35c package of P. D. Q. makes a quart of strong bug-killer and goes farther than a barrel of the old fashioned dangerous dope. P. D. Q. coats and kills their eggs and prevents hatching. Free a patent spout in every box to enable you to get them in the hard-to-get at-places, and saves juice.

P. D. Q. for family use, 35c. Special hospital and hotel size $2.50 makes 5 gallons, contains 3 spouts—your druggist can supply you, or send prepaid to your address either size on receipt of price by the Owl Chemical Co., Terre Haute, Ind., P. D. Q. is never peddled. Sold by Palace Drug Store.

Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

WILD ANIMALS GO UP IN PRICE IN GERMANY

By The Associated Press

Berlin, June 15.—Like everything else in Germany, the price of wild animals has soared sky high. An elephant costs 80,000 marks as against the former price of 7,500. A lion-skin now brings 4,000 marks, which is much more than a living lion used to cost. Owing to the great expanse it is out of the question to replenish Germany's zoos except by breeding and the keepers of the various zoos throughout Germany are cooperating in making their charges.

Gave Legion Burial Ground.

By The Associated Press

Pocatello, Idaho, July 5.— Two small parcels of ground have been donated by the city of Pocatello to the local post of the American legion to be used as a burial ground for legion members. The baseless rumor that two former soldiers, legion members, had been buried in the local potter's field, caused the city fathers to take the action.

Here's how Joe's fish story really started

WE CLAMBERED down.
THROUGH HEAVY thickets.
AND WE rowed the boat.
OUT TO a rocky ledge.
WHERE BLACK bass hide.
THEN JOE let out a roar.
FOR HIS cigar box.
HAD FISH lines in it
INSTEAD OF smokes.
AND HE refused with scorn.
OUR CIGARETTES.
HE SAID they were not.
EVEN FIT for bait.
HE'D HAVE a man's smoke.
OR NOTHING.
AND FOR an hour.
HE GOT nothing.
NOT EVEN a bite.
WHILE WE pulled 'em in.
AT LAST he grunted.
"GIMME A cigarette."
AND IT just happened.
HIS LUCK changed then.
SO NOW Joe swears.
THAT THOSE cigarettes.
WERE SO blamed good.
HE BAITED a hook.
WITH ONE of them.
AND CAUGHT a whale.
PARTICULAR FISH, he says.
HIMSELF AMONG them.
ARE JUST the sort.
THAT THEY satisfy.

INDIANS IN MEXICO ARE CRYING OUT FOR JUSTICE

By The Associated Press:

Mexico City, June 14.—Twelve million Indians, who have slaved for five cents a day for five years at a time to support 3,000,000 idlers, cry out for help to the newly formed National Agrarian party, according to Crisoforo Ibanez, who made the keynote speech at the party's organization meeting here yesterday, according to El Heraldo de Mexico.

"Since childhood I have lived the life of the peasants," said Ibanez. "I know how muc hthe toilers of the field have suffered, how much they need and how much they merit. They have spent five years at a time earning the miserable daily wage of ten centavos (five cents) tilling the earth with the sweat of their brow for other people's profit. In the beginning of our history as a people the Indians were reduced to worse than nothing by the Spanish agents, who, to enslave them, inculcated in them fanaticism for the Virgin of Guadalupe, so as to be able to do anything they pleased with them later, by invoking this name, and the indian was reduced to slavery.

"For this reason the Indian hates the white man. The Indians, who call the animal that roams the fields "cuauhcoyote", simply call the white man "coyote", that is thief. This because for a long time there have been in Mexico 12,000,000 Indians who have supported 3,000,000 idlers and not a few Europeans who also live off of them."

Bitter attacks on President Carranza and some of his followers featured the address of the newly-elected president, Antonio Diaz Soto y Gama, who said that Emiliano Zapata was his "only chief."

Soto y Gama pledged the party's support to the presidential candidacy of General Alvaro Obregon because of his "radicalism", and because he "is feared by the reactionaries."

Generals Alvaro Obregon, Salvador Alvarado, Plutaroo Elias Calles, Antonio I. Villarreal and Gildardo Magana were elected honorary presidents of the new party.

Genesis of the Knocker

This Is So Good We Pay To Have It Seen
(International Harvester Bulletin.)

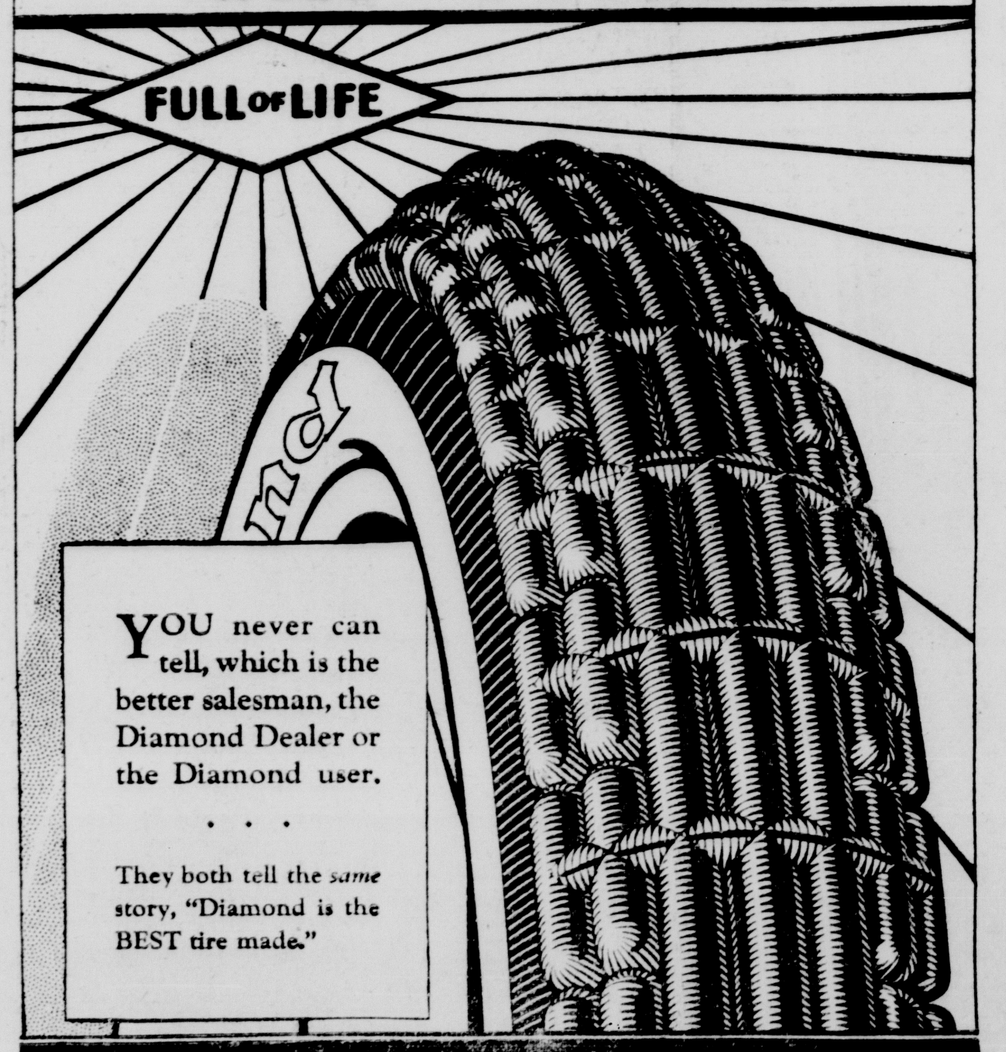

"When the Creator had made all good things, there was still some dirty work to do, so he made the beasts and reptiles and poisonous insects, and when he had finished he had some scraps that were too bad to put into the rattlesnake, the hyena, the scorpion, or the skunk, so he put all these together, covered it with suspicion, wrapped it with jealousy, marked it with a yellow streak, and called it a KNOCKER. This product was so fearful to contemplate that he had to make something to counteract it; so he took a sunbeam, put it in the heart of a child, and the brain of a man, wrapped it in civic pride, covered it with brotherly love, gave it a mask of velvet and a grasp of steel, made it a lover of fields and music, flowers and manly sports, a believer in equality and justice, a worker for and supporter of every good thing, and called it a BOOSTER; and ever since, mortal man has had the privilege of choosing his associates."

Summer Complaint In Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to dit, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Why Trifle With Green, Unripe Drinks? Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences.

There is a tendency today to cheapen and hasten beverages to meet a quantity demand.

Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment.

The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today.

Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air.

The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist.

When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing to cause fermentation in your stomach.

Drink Schlitz today. The Brown Bottle protects it.

OLDEST EMPLOYE OF FRISCO WAS FOUND DEAD IN BED

M. I. (Mike) Council, a well known employe of the Frisco railroad company employed in the Frisco-Santa Fe yards at Paris was found dead in bed at an early hour yesterday morning at his home at 357 Maple avenue.

He had worked all day Tuesday and was supposed to have been in his usual health when he went to bed after eating a hearty supper. It was his custom to get up a 5 o'clock in the morning.

At 5:30 o'clock, half an hour later than his usual time, when he failed to get up for breakfast his wife went in the room to arouse him and found that he was dead. His death is supposed to have been caused by heart failure. The body was still warm, indicating that he had been dead only a short while.

He was born in Illinois and was fifty-nine years old. He had been in the continuous service of the Frisco railroad at Paris for about thirty years, and was the oldest man in its employ here in point of service.

At the time of his death he was general car foreman of the Frisco and the Santa Fe. He was a member of a railroad brotherhood and of the Woodmen of the World.

His wife and five children survive him, three sons and two daughters. A married daughter, Mrs. J. L. Boyington, lives in Pine Bluff, Ark. Two sons, Fred and Roger, are engaged in conducting a meat market in Paris, and the younger children, Bonnie and Frank, live with their mother. He also leaves a brother in Hopkins county and a sister in Illinois.

The funeral service will be held at 3 o'clock this afternoon at the family residence and will be conducted by Rev. R. B. Curry and Rev. Mr. Hutcherson of West Paris.

JOE BAILEY REPLIES TO THREE BLANTON QUERIES

By The Associated Press.

Dallas, July 7.—Joseph Weldon Bailey, candidate for governor of Texas, favors the "open shop," is against "picketing" in strikes and does not favor a law prohibiting sympathetic strikes.

Replying to an open letter addressed to the four Texas gubernatorial candidates by Representative Blanton of the seventeenth district, and in which four questions were propounded, Mr. Bailey here tonight said he had already declared himself "for the open shop and against the eight hour day." As to Mr. Blanton's second question, asking if the candidates favor a law making "picketing a serious misdemeanor," Bailey replied: "I believe it ought to be against the law of any civilized country for any set of men to stand in front of any establishment and attempt to prevent people from patronizing it."

To Representative Blanton's third interrogation "will you favor a law prohibiting all sympathetic strikes," Mr. Bailey answered in part: "I believe a man has a right to quit work whenever he pleases and for any reason. However, having quit work for any reason, good or bad, they (strikers) have no right to interfere with or to molest any other man who wants to take their places, and I would make it a crime to interfere with any citizen of Texas who was pursuing an honest employment. I would inflict no light penalty on men who assaulted or maltreated a law-abiding citizen simply because he was willing to do work that other men had refused to do."

To Representative Blanton's final question, "will you favor a law similar to the Kansas statute," Mr. Bailey said he had not read that law with sufficient thoroughness to warrant his expressing an opinion.
